

# ENVISAGE x SCABAL

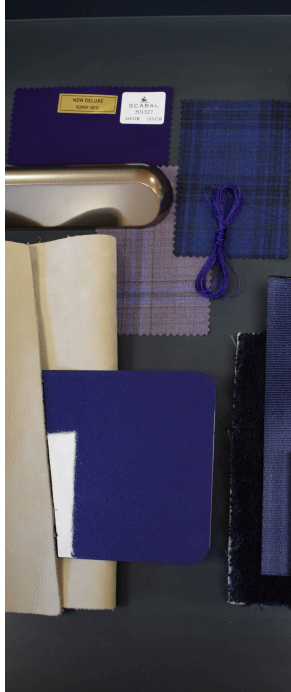

## Blurple

---

---

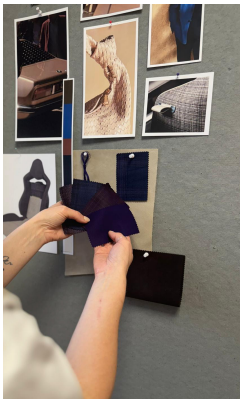

The collaboration  
with Scabal continues  
with a moodboard of  
our Colour of the  
Year – Blurple -  
created by the  
Envisage Group CMF  
Team.

---

The material swatches from Scabal were used for a moodboard that is part of an exciting new project. Our client chose Blurple for his project, with the Scabal fabric used in the "classic heritage" concept.

---

Scabal fabric was also used in the Model 01: The Couch. The bespoke piece of furniture took inspiration from British and automotive heritage, so it was the perfect choice to select an overcoat fabric from the bespoke tailors to cover the seat.

---

Our collaboration began at Concours on Savile Row 2022, when Envisage attended as strategic partners of the luxury coachbuilder, Caton. From this, the partnership continued to grow and is represented within the moodboard by the Caton gear shifter.
